## Notice of publication of a draft environmental permit

Public from: 30.05.2024

Public until: 31.05.2124

Keskkonnaamet publishes this announcement under [Section 47\(2\) of the General Law on the Environment \(KeÜS\)](#).

Keskkonnaamet announces that KIVIKANDUR OÜ (registry code: [11200972](#)) (address Järvekalda tee 1, Harkujärve küla, Harku vald, Harju maakond, 76902) on the basis of the application submitted by the party, a draft decision and permit have been prepared to amend Mining permit No [L.MK/325591](#) of the Helmi-Aakre VI gravel quarry. According to the application for amendment of extraction permit No [L.MK/325591](#), the company wants to extend the mining allocation in a depth direction to the extraction of block 24 at and to change the area of the service area. On the basis of extraction permit No [L.MK/325591](#) (extraction permit valid 02.04.2015 - 01.04.2030), THE ROCK CARRIER OÜ Helmi-Aakre is extracting construction gravel and construction sand in the VI gravel barrier. Helmi-Aakre VI gravel career is located in the village of Rebaste in Elva Parish, Tartu County in private land. Simuna cadastral unit (60801:001:1922). The area of the mining claim service area is 5.02 ha and the area of the mining claim is 3.99 ha. The requested Helmi-Aakre VI gravel career covers blocks 22, 23 and 24 of the active supply stock of the Helmi-Aakre deposit (registry card No 518). According to the application for amendment of the extraction permit, as of 30.09.2023 the quantity of active consumable stock of mining sands is 78,708 ash m<sup>3</sup> and the extracted stock is 68,008 ash m<sup>3</sup>. The active supply of construction gravel is 31,487 ash m<sup>3</sup> and the stock to be extracted is 26,887 ash m<sup>3</sup>. The average annual rate of extraction of mineral resources shall be 13 ash m<sup>3</sup>. Purpose of use of extracted land artificial water body and forest land. The uses of mineral resources include road construction and construction. The exclusion conditions of an extraction permit shall be determined as: 1. In the direction of the small Oona and Jacob farms, store the walls of the roof. 2. The allowed working time is from 7 to 20 p.m. in the quarry. 3. Mining in the quarry of Helmi-Aakre VI will continue with the quarries of Helmi-Aakre III and VI formed along the common boundary of quarries and under the guise of the quarry, moving gradually westward. 4. Treatment of the material at a distance from the Väike-Oona farm where the noise application level at the border of the outdoor area of the Väike-Oona farm is not exceeded. In the case of complaints, measure the noise level at the border of the outdoor area at the expense of the holder of the permit. If the established limit is exceeded, take additional measures (e.g. moving the crushing complex beyond the experience, storing processed material from the crushed site to the farm) to reduce noise and bring it to the permitted level. 5. Quarry paths and sprinkles of material must be dipped during dry periods. In case of complaints, the total concentration of particulate matter (PM-sum) and fine particulate matter (PM10) in ambient air must be measured at the expense of the holder of the permit at the request of the Environmental Board at the residence of the Väike-Oona farm and additional mitigation measures must be applied if the established limit values are exceeded (e.g. more frequent watering of career paths, crushing at a distance not exceeding limit values). 6. In the protection zone of state roads 232421 Ülpere-Kure and 23143 Oona-Puka-Kõrep, extraction is permitted only on the basis of a mining project previously approved by the Road Administration. 7. In the event of proven negative effects of extraction on groundwater and its level, the expenses incurred shall be borne by the holder of the extraction permit..

, application for authorisation of the draft(s) and other relevant documents are available on In the offices of the Environmental Board all over Estonia..

The draft (s) is (are) digitally available at <https://kotkas.envir.ee/menetlus/M-126553> in the environmental decision information system

Proposals and objections to the draft(s) can be submitted orally to Environment Agency or in writing to email to [info@keskkonnaamet.ee](mailto:info@keskkonnaamet.ee) within two weeks from the date of publication of the announcement in the Official Announcements.

The Environmental Board shall make a proposal for hearing the matter without conducting a public session.
