Notice of public display of and public consultation of an environmental impact assessment programme

Public from: 08.06.2020

Public until: for an indefinite period

Keskkonnaamet publishes this announcement under [paragraph 16\(2\)\(1\) of the Law on environmental impact assessment and management systems \(KeHJS\)](#).

Keskkonnaamet announces the Application for authorisation to exploit peat in the peat production area of OÜ Hulja of the publication of the environmental impact assessment (EIA) programme.

The objective of the proposed activity is to restore the extraction of peat in the abandoned Hulja peat field. The Mountain deposit is made up of two solvent units 5 and 6 of the active consumable stock of well-degraded peat in the central and southern parts of the Hulja peat deposit. The northern mountain allocation (Block 5 of the utility stock of Hulja) is located in the village of Veltsi, in the municipality of Rakvere, in the village of Hulja, and the southern village (Block 6 of the utility stock of Hulja) in the village of Kadrina and in the village of Tribiku, in the salt of Kanapekhma. The service area of the northern mountain deposit remains within the territory of the village of Auküla in the municipality of Haljala. The EEA initiated the EIA for the planned operation by letter No V 10-5/13/18803-5 of 19.11.2013.
