## **Notice of public display and public consultation of the sea report**

Start of publication: 07.04.2016

End of publication: indefinite

The Ministry of the Environment publishes a notice pursuant [to paragraphs 41 and 37\(1\) of the Law on environmental impact assessment and management systems \(KeHJS\)](#).

The OÜ Eesti Keskkonnauuringute Keskus informs the of the publication of the proposal for a draft "Development Plan for Adaptation to Climate change 2030" and its Strategic environmental assessment (sea) report.

The Ministry of the Environment initiated the Strategic environmental assessment of the "Development Plan for Adaptation to Climate change 2030" by Decree No 293 of 25.03.2015,

.The development plan is designed to ensure the readiness and ability of Estonia to adapt to the effects of climate change. This means that the entire population, public and local authorities, the private sector and businesses, as well as society at large, are aware of climate change, are capable of properly assessing, responding to and adapting to the risks of change and thus avoiding the negative effects of climate change and maximising its positive effects on

.The effects of climate change affect Estonia as well as Europe as a whole (including the border States of Estonia)

.
